## ***Fully-Automatic Rotary Blister Sealers FAB Series***

The *FAB Series Rotary Blister Sealer* is ideal for medium to high volume production.

These machines are equipped with automatic blister and card feeders, and an automatic unloading system for finished product. The feeders, unloading system, and sealing plate are independently controlled by operator interface to facilitate the Set-Up, and to run special products. The sealing plate is regulated by **digital temperature control**.

Machine is equipped with **CAM** index drive system with speed control.

Set-Up time of magazines, cards, and blisters, is quick and easy.

All motions and functions are coordinated using a PLC Control Panel with Touch Screen Operator Interface. Step-up counter is included in the interface. Push Buttons for feasibility of manual cycling and index jog are also standard.

Structure: Heavy gauge welded steel.

## SPECIFICATIONS

| Model                                 | FAB6-1418                | FAB6-1430                | FAB8-1418                | FAB8-1222                |
|---------------------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| <b>Maximum Sealing Area:</b>          | 14" x 18"                | 14" x 30"                | 14" x 18"                | 12" x 22"                |
